

St. Kabir Convent Sen. Sec. School Bathinda

"Education is the key to unlocking the world, a passport to freedom." Oprah Winfrey.

It is at school that the children learn to play, interact with others and invigorate their minds with equipped resources to make their way in the new changing world.

I myself being Managing Director, of the prestigious St. Kabir Convent Sen. Sec. School, Bathinda, would like to take golden opportunity of declaring that the **On-line Admission is open for the Session 2020-21!** Our school has the most peculiar form of educational techniques with lush green lawns, stunning aura, magnificent infrastructure, talented and hardworking highly qualified staff.

The main motive of our institution is to provide quality education to everyone irrespective they are from the rural areas, as they may one day become the brightest star in the sky in the times to come. Our school is run by a group of educationists and philanthropists who accord more priority to provide a value based quality education over money consideration, as a result very nominal tuition fee is charged so that it is accessible to all.

I would like to request the parents to acknowledge the entire prospectus to have insight of facilities in school such as cyber facilities, computer labs, smart classes etc. In order to enhance their confidence so that children should not linger behind in the new changing world many debates as well as exhibits are being held in school campus. To develop a sense of friendliness and team spirit among student sports are given equal importance as it is given to studies. Sports facilities like basketball court, volleyball court, cricket ground etc. are available and more would be added in future.

In these dreadful days of Corona Virus our school is providing online access to education and many YouTube links for their physical activities to inculcate sense of discipline and ethnicity. Any fact mentioned above can be verified by any person from the public and the school would be pleased to welcome him/her.

At last I assure you that I myself and my team of highly competent teachers assure you that we will leave no stone un-turned for the betterment and brilliant future of your child.

Stay Home, Stay Safe

With My Best Wishes,

Prof M.L.Arora

Managing Director

St. Kabir Group of Institutions
